

## Call for Tutorial Proposals – PAKDD09

PAKDD 2009

The 13th Pacific-Asia Conference on Knowledge Discovery and Data Mining

April 27-30, 2009, Bangkok, Thailand

URL: <http://itpe.sit.tu.ac.th/pakdd2009/front/show/call-for-tutorial-proposal>

The 13th Pacific-Asia Conference on Knowledge Discovery and Data Mining (PAKDD-09) is a major international conference in the areas of data mining and knowledge discovery. It provides an international forum for researchers and industry practitioners to share their new ideas, original research results and practical development experiences from all KDD-related areas, including data mining, data warehousing, machine learning, databases, statistics, knowledge acquisition and automatic scientific discovery, data visualization, causal induction and knowledge-based systems. The conference website is at <http://www.pakdd2009.org>.

PAKDD-09 will be held in Bangkok, Thailand. It is expected that there will be many attendees with strong interests in learning about all aspects of data mining. As an integral part of PAKDD-09, we invite proposals for tutorials in all areas of data mining, including introductory and overview tutorials as well as state-of-the-art tutorials and data mining in-practice tutorials. Each tutorial will be presented in a 3 hours session.

A tutorial proposal should include the following information:

- Title
- A brief summary of the topic
- Outline with a short summary of each section
- Specific goals and objectives
- Expected background of the audience
- A biographical sketch of the presenter(s)
- Audio/Visual equipments required for the presentation

Possible tutorial topics include, but are not limited in, the following:

- Introduction to Data Mining Algorithms
- Data Mining in Industry
- Tools for Data Mining
- KDD Process and Human Interaction
- Mining of Web, Community and Social Network Data
- Mining of Structured/semi-structured/unstructured Data
- Mining of Biomedical Data
- Mining of Multimedia Data
- Mining of Temporal Data
- Stream Data Mining
- High-Performance Data Mining
- Text Mining
- Privacy Preserving Data Mining

Proposals should be no more than 5 pages in length, including the presenter's name, affiliation, address, email, phone and fax. Electronic submissions must be received by 17 November 2008. Please submit your proposals via email to both Tutorial Chairs:

- Vincent S. Tseng (Email: [tsengsm@mail.ncku.edu.tw](mailto:tsengsm@mail.ncku.edu.tw) )
- Shusaku Tsumoto (Email: [tsumoto@computer.org](mailto:tsumoto@computer.org) )

Proposals will be evaluated based on relevance and contents. For selected tutorials, the presenters will receive an honorarium, which may be split between multiple presenters for a single tutorial. Comprehensive tutorial notes should be provided (printable slides) by 20 March 2009, for production of copies for distribution at the conference. They will also be published on the PAKDD web site and available to attendees.

Important Dates:

- Tutorial Proposal Due: 17 November 2008
- Acceptance Notification: 28 November 2008
- Tutorial notes (printable slides) Due: 20 March 2009
- Tutorial Presentation: 27 April 2009 (tentative)

This will be an exciting time for Data Mining in the Asia region, and also an excellent opportunity to build connections with regional researchers and industry practitioners. We look forward to your proposals and contributions to PAKDD 2009 Tutorial Program.
